

Dear Sirs,

I write to you today to let you know that a station I listen to often. This station is a translator service for the K-LOVE program and I rely upon this service for positive and encouraging messages as well as uplifting music and messages. I feel very strong about the message of this station and am a monthly sponsor.

This station serves many people in my listening area and if it were displaced by another broadcaster I would be very dissapointed. I would be dissapointed since I would not have the ability to hear the music and messages myself but also that others in my community would lose this opportunity as well.

It is clear that faith based initiatives are having a positive impact on society and is supported by President Bush. K-Love offers this same service to so many people and all is neded is a simple radio.

K-Love brings the message of God to many. It allows people searching the airwaves to listen to good and positive music and to hear positive messages. I know the impact the station has on my life and am pleased that I can contribute to this valuable service that may help others in my listening community.

I ask that you consider not allowing a low power FM station to displace the station and service that many in my community rely upon.

Thank you
